2 Introduction

2.1 About this Manual

Please take a look at the Step-by-Step manual “SIUSRank Database Set Up” and “SIUSRank Qualifications and Finals” before continuing with this manual.

2.2 About SIUSRank

SIUSRank is a software used to conduct and rank International competitions, and to organize entire Championships.

Start and rank lists are automatically created and can be printed.

Live results and target pictures are shown on a spectators screen.

SIUSRank imports the shot data from SIUSData by TCP/IP, and they run optionally on the same or separate computers.
